**The Metaphorical Use of Language in Deuterocanonical and Cognate Literature** Markus Witte,Sven Behnke,2015-01-01 Metaphors are a vital linguistic component of religious speech and serve as a cultural indicator of how groups understand themselves and the world. The essays compiled in this volume analyze the use, function, and structure of metaphors in Jewish writings from the Hellenistic-Roman period (including the works of Philo and the texts of Qumran), as well as in apocryphal early Christian texts and inscriptions.

**A Kingdom of Images** Peter Fuhring,Louis Marchesano,Remi Mathis,Vanessa Selbach,2015-06-18 Once considered the golden age of French printmaking, Louis XIV's reign saw Paris become a powerhouse of print production. During this time, the king aimed to make fine and decorative arts into signs of French taste and skill and, by extension, into markers of his imperialist glory. Prints were ideal for achieving these goals; reproducible and transportable, they fueled the sophisticated propaganda machine circulating images of Louis as both a man of war and a man of culture. This richly illustrated catalogue features more than one hundred prints from the Getty Research Institute and the Bibliothèque nationale de France in Paris, whose print collection Louis XIV established in 1667. An esteemed international group of contributors investigates the ways that cultural policies affected printmaking; explains what constitutes a print; describes how one became a printmaker; studies how prints were collected; and considers their reception in the ensuing centuries. A Kingdom of Images is published to coincide with an exhibition on view at the Getty Research Institute from June 18 through September 6, 2015, and at the Bibliothèque nationale de France in Paris from November 2, 2015, through January 31, 2016.

*Rejected Princesses* Jason Porath,2016-10-25 Blending the iconoclastic feminism of The Notorious RBG and the confident irreverence of Go the F\*\*ck to Sleep, a brazen and empowering illustrated collection that celebrates inspirational badass women throughout history, based on the popular Tumblr blog. Well-behaved women seldom make history. Good thing these women are far from well behaved . . . Illustrated in a contemporary animation style, Rejected Princesses turns the ubiquitous pretty pink princess stereotype portrayed in movies, and on endless toys, books, and tutus on its head, paying homage instead to an awesome collection of strong, fierce, and yes, sometimes weird, women: warrior queens, soldiers, villains, spies, revolutionaries, and more who refused to behave and meekly accept their place. An entertaining mix of biography, imagery, and humor written in a fresh, young, and riotous voice, this thoroughly researched exploration salutes these awesome women

drawn from both historical and fantastical realms, including real life, literature, mythology, and folklore. Each profile features an eye-catching image of both heroic and villainous women in command from across history and around the world, from a princess-cum-pirate in fifth century Denmark, to a rebel preacher in 1630s Boston, to a bloodthirsty Hungarian countess, and a former prostitute who commanded a fleet of more than 70,000 men on China's seas.

*Paradise* Jasbir Juggi, 2024-03-29 No one knows heaven's paradise, but earthly paradises created by mortals may mirror the paradise of the afterlife. Mughal Emperor Shah Jahan crafted paradises with Diwan-e-Khas in Delhi and the Taj Mahal in Agra. Enthralled by the splendor, he inscribed a Persian couplet on the Diwan's arches: 'If there is paradise on earth, it is this, it is this, it is this.' The title and contents of this book echo the crux of this couplet. This travelogue explores the author's five-decade journey through European monarchs' architectural marvels of paradisiacal proportions and their eminence relative to South Asian architectural resurgence under Shah Jahan in the 17th century CE.

*Ekphrastic Image-making in Early Modern Europe, 1500–1700* Arthur J. DiFuria, Walter Melion, 2021-12-20 This volume examines how and why many early modern pictures operate in an ekphrastic mode.

Henry Brown doesn't know how old he is. Nobody keeps records of slaves' birthdays. All the time he dreams about freedom, but that dream seems farther away than ever when he is torn from his family and put to work in a warehouse. Henry grows up and marries, but he is again devastated when his family is sold at the slave market. Then one day, as he lifts a crate at the warehouse, he knows exactly what he must do: He will mail himself to the North. After an arduous journey in the crate, Henry finally has a birthday -- his first day of freedom.

**Family Nibbles - Volume 4** Mark Jarvis, Family Nibbles - Volume 4, Stories of Our Jarvis Ancestors 1680-1800 is a compilation of stories from the blog site [familynibbles.com](http://familynibbles.com). These stories include genealogy research on one line of Jarvis families in early Pennsylvania and Maryland. In fall of 1683, Elizabeth Jervis and her two children disembarked their ship at Chester, Pennsylvania. That's the moment that our Jarvis ancestors first arrived in America. This volume begins the story of our Jarvis family in America. We've been here for a long time. We'll follow the first three generations of our family as they experienced America from 1680 to 1800. These were common folk. They had successes and troubles. They had legal scrapes. Just when it seemed like they'd made it, some setback would knock them down. And when each generation suffered an economic hardship that made their lifestyle unsustainable, they chose the risk of moving west into frontier lands.

**World Cities, City Worlds** William Solesbury, 2018-12-17 When living and working in cities, we need to make sense of them in order to get by. We must delve below their surface to understand what makes them tick and how we can best engage

with them. This book argues that three tropes can help us: namely, metaphors, icons and perspectives. Metaphorically, we can see the city as a community, a battleground, a marketplace, a machine or an organism. Some cities are iconic; they present us with characteristics that are more generally true of cities and city life, such as Venice, Mumbai, New York, Tokyo, Paris and Los Angeles. Cities can also be viewed from different perspectives: those of artists, analysts, rulers and citizens. This book explores these ways of understanding cities, drawing on rich accounts of cities across the world and through time.

**Chronicling the Golden Age of Astronomy** Neil English, 2018-10-31 The invention of the telescope at the dawning of the 17th century has revolutionized humanity's understanding of the Universe and our place within it. This book traces the development of the telescope over four centuries, as well as the many personalities who used it to uncover brand-new revelations about the Sun, Moon, planets, stars and distant galaxies. Starting with early observers such as Thomas Harriot, Galileo, Johannes Hevelius, Giovanni Domenico Cassini, Robert Hooke and Christian Huygens, the book explores how these early observers arrived at essentially correct ideas concerning the objects they studied. Moving into the 18th and 19th centuries, the author describes the increasing sophistication of telescopes both large and small, and the celebrated figures who used them so productively, including the Herschels, Charles Messier, William Lassell and the Earls of Rosse. Many great discoveries were also made with smaller instruments when placed in the capable hands of the Struve dynasty, F.W. Bessel, Angelo Secchi and S.W Burnham, to name but a few. Nor were all great observers of professional ilk. The book explores the contributions made by the 'clerical astronomers,' William Rutter Dawes, Thomas William Webb, T.E.R Philips and T.H.E.C Espin, as well as the lonely vigils of E.E. Barnard, William F. Denning and Charles Grover. And in the 20th century, the work of Percival Lowell, Leslie Peltier, Eugene M. Antoniadi, Clyde Tombaugh, Walter Scott Houston, David H. Levy and Sir Patrick Moore is fully explored. Generously illustrated throughout, this treasure trove of astronomical history shows how each observer's work led to seminal developments in science, and providing key insights into how we go about exploring the heavens today.

**Unspoken** Henry Cole, 2016-10-25 A Civil War-era girl's courage is tested in this haunting, wordless story. When a farm

girl discovers a runaway slave hiding in the barn, she is at once startled and frightened. But the stranger's fearful eyes weigh upon her conscience, and she must make a difficult choice. Will she have the courage to help him? Unspoken gifts of humanity unite the girl and the runaway as they each face a journey: one following the North Star, the other following her heart. Henry Cole's unusual and original rendering of the Underground Railroad speaks directly to our deepest sense of compassion. Praise for *Unspoken* A New York Times Best Illustrated Book "Designed to present youngsters with a moral choice . . . the author, a former teacher, clearly intended *Unspoken* to be a challenging book, its somber sepia tone drawings establish a mood of foreboding." —The New York Times Book Review "Moving and emotionally charged." —Kirkus Reviews, starred review "Gorgeously rendered in soft dark pencils, this wordless book is reminiscent of the naturalistic pencil artistry of Maurice Sendak and Brian Selznick." —School Library Journal, starred review "Cole's . . . beautifully detailed pencil drawings on cream-colored paper deftly visualize a family's ruggedly simple lifestyle on a Civil War-era homestead, while facing stark, ethical choices . . . Cole conjures significant tension and emotional heft . . . in this powerful tale of quiet camaraderie and courage." —Publishers Weekly, starred review
