2089 Miles M Hudson,2018-09-20 The year is 2089, and technologists have developed a system for remotely tapping into the optic and auditory nerves of all humans. Everything that people see and hear is detected and published publicly online; nothing can be secret. It is the ultimate surveillance society. After the devastating Times of Malthus though, that's what the people wanted - we chose to be watched at all times. Jack Smith, one of the surveillance monitors, blows up the old GCHQ building in Cheltenham, destroying the surveillance computers. He goes on the run across post-apocalyptic Gloucestershire, with old friend Vicky Truva. The two are chased by a ragtag posse, including Vicky's brothers, intent on bringing the apparent revolutionaries to justice. However, the fugitives have the advantage that the information and surveillance network is down. Can Jack and Vicky evade capture, and survive hunger and thirst on the River Severn, for long enough that the people will realise how much better their lives are without the surveillance? Or will they be caught and convicted as the worst terrorists in fifty years?

De Renne William Harris Bragg, 1999 Much of what is known today of Georgia history was preserved through the diligent efforts of a single family. From Wormsloe, their ancestral plantation near Savannah, the De Rennes built an extraordinary collection of books and manuscripts on the history of the state and the Confederacy, much of which is now housed at the University of Georgia and the Museum of the Confederacy. This book focuses on their efforts in the years 1827 through 1970, conveying the passion and purpose with which they pursued their avocation. William Harris Bragg has mined a vast array of archival sources to present this engaging narrative of the De Renne family. He tells how wealthy bibliophile and philanthropist G. W. J. De Renne and his wife, Mary, set the precedent for the family's accumulation of historic material, how their son established the Wymberley Jones De Renne Georgia Library that bears his name, and how his children in turn expanded upon that tradition. The De Rennes also printed limited editions of primary historical materials beginning with the series known as the Wormsloe Quartos. Bragg's account of three generations of the De Renne family vividly records their achievements as it reconstructs their life at Wormsloe and follows them in their travels around the world. It provides glimpses into the dynamics and behavior of one of Georgia's oldest and most prominent families and the evolution of the southern aristocracy. The book draws on newly available material to expand significantly on Ellis Merton Coulter's 1955 work, *Wormsloe*, and provides the most complete account to date of the De Rennes. Beyond the story of the De Renne family, Bragg also reveals much about the history of collecting and of the antiquarian book trade, as well as of the evolution of Georgia historical documentation. Appendix material includes genealogical tables and lists of collections and publications, making *De Renne: Three Generations of a Georgia Family* an invaluable source for all scholars and aficionados of southern

history.

Magnum Russell Miller, 2010-08-03 This book is a biography of Magnum, told largely in the words of its photographers. It offers a unique perspective on half a century of world history from an extraordinary group of men and women who were front line witnesses at virtually every major event in the last fifty years. Wars, famines, natural disasters, social, political and environmental crises - Magnum photographers were there. They have been acute observers of the human condition, photographing the richest people in the world, the poorest, the least known and the most celebrated, from Marilyn Monroe to Che Guevara, JFK to Nelson Mandela, Picasso to Krushchev. This is a multi-layered story. At one level, it tells how a small group of photographers - among them Robert Capa, Henri Cartier-Bresson and George Rodger - came together, established and nurtured a co-operative photographic agency that has survived against all the odds to become the most famous in the world. At a secondary level, it is the richly anecdotal story of the photographers themselves, their adventures around the world and their feelings about, and reactions to, their assignments.
