Failed Images Ernst van Alphen,2018 'Failed Images' attempts to understand the divergence between photography and the reality it portrays, analysing the various ways the photograph transforms that which exists before the camera. Because the photographic medium enables very different practices, which in turn results in many kinds of images, it must also be examined from a perspective outside of the dominant approach to the medium, generally called the 'snapshot.' This book therefore explores the photographic image by focusing on practices which refuse this conventional approach, namely staged, blurred, under- and overexposed, and archival photography.

The Catholic Sanctuary Michael Davies, 1997 In this very important little pocket booklet, Michael Davies sets forth the amazing thesis that Vatican II and the Post Vatican II legislation did not mandate any changes in the Catholic sanctuary: that is, they did not mandate moving the Tabernacle from the central point in the altar, nor placing a chair in the middle of the sanctuary - or even Mass facing the people. Filled with quotes from the relevant passages of the actual Church documents, this valuable little handbook is a wonderful aid for those trying to educate, discuss and fight a modernist update of the sanctuary in a parish Church. Michael Davies also shows the striking similarity between the Protestant & 34; Reformers & 34; destruction of altars in the 16th century and today's destruction of altars and sanctuaries by modernist reformers. This booklet is a best seller and an eye opener to unsanctioned changes in the structure of the sanctuary.

Advances in Systems, Computing Sciences and Software Engineering Tarek Sobh, Khaled Elleithy, 2006-08-15 The conference proceedings of the International Conference on Systems, Computing Sciences and Software Engineering include a set of rigorously reviewed world-class manuscripts addressing and detailing state-of-the-art research projects in the areas of Computer Science, Software Engineering, Computer Engineering, and Systems Engineering and Sciences. The International Conference on Systems, Computing Sciences and Software Engineering (SCSS 2005) was part of the International Joint Conferences on Computer, Information and Systems Sciences and Engineering (CISSE 2005). CISSE 2005, the World's first Engineering/Computing and Systems Research E-Conference was the first high-caliber Research Conference in the world to be completely conducted online in real-time via the internet. CISSE received 255 research paper submissions and the final program included 140 accepted papers, from more than 45 countries. The whole concept and format of CISSE 2005 was very exciting and ground-breaking. The powerpoint presentations, final paper manuscripts and time schedule for live presentations over the web had been available for 3 weeks prior to the start of the conference for all registrants, so they could pick and choose the presentations they want to attend and think about questions that they might want to ask. The live audio presentations were also recorded and are part of the permanent CISSE archive, which includes all power point presentations, papers and recorded presentations. All aspects of the conference were managed on-line; not only the reviewing, submissions and registration processes; but also the actual conference. Conference participants - authors, presenters and attendees - only needed an internet connection and sound available on their computers in order to be able to contribute and participate in this international ground-breaking conference. The on-line structure of this high-quality event allowed academic professionals and industry participants to contribute work and attend world-class technical presentations based on rigorously refereed submissions, live, without the need for investing significant travel funds or time out of the office. Suffice to say that CISSE received submissions from more than 50 countries, for whose researchers, this opportunity

presented a much more affordable, dynamic and well-planned event to attend and submit their work to, versus a classic, on-the-ground conference. The CISSE conference audio room provided superb audio even over low speed internet connections, the ability to display PowerPoint presentations, and cross-platform compatibility (the conferencing software runs on Windows, Mac, and any other operating system that supports Java). In addition, the conferencing system allowed for an unlimited number of participants, which in turn granted CISSE the opportunity to allow all participants to attend all presentations, as opposed to limiting the number of available seats for each session. The implemented conferencing technology, starting with the submission & review system and ending with the online conferencing capability, allowed CISSE to conduct a very high quality, fulfilling event for all participants.

Loved and Missed Susie Boyt, 2023-09-19 Ruth is a woman who believes in and despairs of the curative power of love. Her daughter, Eleanor, who is addicted to drugs, has just had a baby, Lily. Ruth adjusts herself in ways large and small to give to Eleanor what she thinks she may need—nourishment, distance, affection—but all her gifts fall short. After someone dies of an overdose in Eleanor's apartment, Ruth hands her daughter an envelope of cash and takes Lily home with her, and Lily, as she grows, proves a compensation for all of Ruth's past defeats and disappointment. Love without fear is a new feeling for her, almost unrecognizable. Will it last? *Love and Missed* is a whip-smart, incisive, and mordantly witty novel about love's gains and missteps. British writer Susie Boyt's seventh novel, and the first to be published in the United States, is a triumph.

My Judy Garland Life Susie Boyt, 2009-07-01 Judy Garland has been an important figure in Susie Boyt's life since she was three years old, comforting, inspiring, and at times disturbing her. In this unique book Boyt travels deep into the underworld of hero-worship, examining our understanding of rescue, consolation, love, grief, and fame through the prism of Judy. Her journey takes in a duetting breakfast with Mickey Rooney, a munchkin luncheon, a late-night spree at the Minnesota Judy Garland Museum, and a breathless, semi-sacred encounter with Liza Minnelli. Layering key episodes from Garland's life with defining moments from her own, Boyt demands with insight and humor, what it means, exactly, to adore someone you don't know. Does hero worship have to be a pursuit that's low in status or can it be performed with pride and style? Are there similarities that lie at the heart of all fans? Chronicling her obsession, Boyt illuminates her own life and perfectly distills why Judy Garland is such a legend.

Wonderful Feels Like This Sara Lövestam, 2017-04-06 A feel-good story of an unconventional friendship between an old retired jazz musician and a young girl who is trying to find her place in the world. What can a bullied teenager learn from an old man spending his days in a retirement home? For a start, she'll learn that it ain't got a thing, if it ain't got that swing... Passing by a retirement home on her way from yet another awful day at school, she hears a familiar song playing through an open window. An old man is playing her musical idol Povel Ramel - a quirky jazz musician from the 1940s - and it sparks a new stage of her life. The man's name is Alvar and just like Steffi, he has a huge interest in music. Before long he starts

telling her his story. In his youth, as the Second World War tore across Europe, he travelled to Stockholm. Young, innocent and quite naive, Alvar began his life in the big city, struggling to become a famous jazz musician. Or at least someone who was in a band. Or at the very least someone who could dance the jitterbug and talk to girls. Intrigued and inspired by Alvar's story, Steffi spends more and more time at the retirement home, learning about jazz and forgetting about school. She begins to realize that she doesn't have to be the Steffi other people know; instead, as Alvar did, she can recreate herself through music.

Dynamic Epigraphy Eleri H. Cousins, 2022-03-24 This volume, with origins in a panel at the 2018 Celtic Conference in Classics, presents creative new approaches to epigraphic material, in an attempt to 'shake up' how we deal with inscriptions. Broad themes include the embodied experience of epigraphy, the unique capacities of epigraphic language as a genre, the visibility of inscriptions and the interplay of inscriptions with literary texts. Although each chapter focuses on specific objects and epigraphic landscapes, ranging from Republican Rome to early modern Scotland, the emphasis here is on using these case studies not as an end in themselves, but as a means of exploring broader methodological and theoretical issues to do with how we use inscriptions as evidence, both for the Greco-Roman world and for other time periods. Drawing on conversations from fields such as archaeology and anthropology, philology, art history, linguistics and history, contributors also seek to push the boundaries of epigraphy as a discipline and to demonstrate the analytical fruits of interdisciplinary approaches to inscribed material. Methodologies such as phenomenology, translingualism, intertextuality and critical fabulation are deployed to offer new perspectives on the social functions of inscriptions as texts and objects and to open up new horizons for the use of inscriptions as evidence for past societies.
