Red Flowers Yoshiharu Tsuge, 2021-01-26 The influential cartoonist hits his stride as he celebrates the charms and oddities of rural postwar culture Yoshiharu Tsuge leaves early genre trappings behind, taking a light, humorous approach in these stories based on his own travels. Red Flowers ranges from deep character studies to personal reflections to ensemble comedies set in the hotels and bathhouses of rural Japan. There are irascible old men, drunken gangsters, reflective psychiatric-hospital escapees, and mysterious dogs. Tsuge's stories are mischievous and tender even as they explore complex relationships and heartache. It's a world of extreme poverty, tradition, secret fishing holes, and top-dollar koi farming. The title story highlights the nuance and empathy that made Tsuge's work stand out from that of his peers. A nameless traveler comes across a young girl running an inn. While showing the traveler where the best fishing hole is, a bratty schoolmate reveals the girl must run the business because her alcoholic father is incapable. At the story's end, the traveler witnesses an unusual act of kindness from the boy as the girl suffers her first menstrual cramps — and a simple travelogue takes on unexpected depth. Red Flowers affirms why Tsuge went on to become one of the most important cartoonists in Japan. These vital comics inspired a wealth of fictionalized memoir from his peers and a desire within the postwar generation to document and understand the diversity of their country's culture.

League of Super Feminists Miron Malle, 2021-05-04 This primer on feminism and media literacy teaches young readers why it matters The League of Super Feminists is an energetic and fierce comic for tweens and younger teens. Cartoonist Mirion Malle guides readers through some of the central tenets of feminism and media literacy including consent, intersectionality, privilege, body image, inclusivity and more; all demystified in the form of a witty, down-to-earth dialogue that encourages questioning the stories we're told about identity. Malle's insightful and humorous comics transport lofty concepts from the ivory tower to the eternally safer space of open discussion. Making reference to the Bechdel test in film and Peggy McIntosh's dissection of white privilege through the metaphor of the "invisible knapsack," The League of Super Feminists is an asset to the classroom, library, and household alike. Knights and princesses present problems associated with consent; superheroes reveal problematic stereotypes associated with gender; and grumpy onlookers show just how insidious cat-calling culture can be. No matter how women dress, Malle explains, there seems to always be someone ready to call it out. The League of Super Feminists articulates with both poise and clarity how unconscious biases and problematic thought

processes can have tragic results. Why does feminism matter? Are feminists man-haters? How do race and feminism intersect? Malle answers these questions for young readers, in a comic that is as playful and hilarious as it is necessary.

I Am Ariel Sharon Yara El-Ghadban,2020-11-17 A bold and innovative novel, I Am Ariel Sharon dives into the tortured mind of the controversial Israeli prime minister as he lies comatose and faces an ultimate reckoning. Award-winning Palestinian Canadian novelist Yara El-Ghadban imagines the confrontation at death's door between Ariel Sharon, the "King of Israel," and the women closest to him — his mother, his wives, and the mysterious nurse Rita. Like latter-day Greek furies, they lament the brutality of his life and maltreatment of the Palestinian people and demand he face up to his part in the bloodshed of Israel's wars. Here is an extraordinary, magical, and impassioned story of nearly impossible empathy, the singular work of a novelist in full flight.

Orbital Mechanics for Engineering Students Howard D Curtis,2009-10-26 *Orbital Mechanics for Engineering Students*, Second Edition, provides an introduction to the basic concepts of space mechanics. These include vector kinematics in three dimensions; Newton's laws of motion and gravitation; relative motion; the vector-based solution of the classical two-body problem; derivation of Kepler's equations; orbits in three dimensions; preliminary orbit determination; and orbital maneuvers. The book also covers relative motion and the two-impulse rendezvous problem; interplanetary mission design using patched conics; rigid-body dynamics used to characterize the attitude of a space vehicle; satellite attitude dynamics; and the characteristics and design of multi-stage launch vehicles. Each chapter begins with an outline of key concepts and concludes with problems that are based on the material covered. This text is written for undergraduates who are studying orbital mechanics for the first time and have completed courses in physics, dynamics, and mathematics, including differential equations and applied linear algebra. Graduate students, researchers, and experienced practitioners will also find useful review materials in the book. NEW: Reorganized and improved discussions of coordinate systems, new discussion on perturbations and quaternions NEW: Increased coverage of attitude dynamics, including new Matlab algorithms and examples in chapter 10 New examples and homework problems

Mina Among the Shadows Edem Awumey,2020-10-21 Kerim Neto returns to his hometown, a city on Africa's Atlantic coast, to search for Mina, his former model, lover, and muse. But Mina has disappeared. He combs the streets and byways he has known, hoping to run into her. He questions his old friends from the theatre, with whom he and Mina had performed, mocking the country's rulers, the army and dictators. But these friends have now joined the established order, become imams, preachers, and police informers. Which Mina will Kerim find? Will she be hidden behind a veil? Or sing of the risen Christ? Will she bear the marks of torture? In this novel the reader will discover an Africa where power lies in the hands of

evil forces; a place that sells itself basely under the pretext of globalization; where religions compete for the minds of people with words of Allah or the Gospels, as the ancient Orishas look on. *Mina Among the Shadows* is a hymn to immutable desire, the power of beauty, and the courage of women.

Time for Andrew Mary Downing Hahn, 2007 When he goes to spend the summer with his great-aunt in the family's old house, eleven-year-old Drew is drawn eighty years into the past to trade places with his great-great-uncle who is dying of diphtheria.

Delia's Shadow Jaime Lee Moyer, 2013-09-17 [Jaime] Moyer creates a hauntingly real San Francisco, full of characters you can't wait to get to know better. *Delia's Shadow* is an engaging debut novel, one that cost me a good night's sleep. —Jim C. Hines, author of *Libriomancer* It is the dawn of a new century in San Francisco and Delia Martin is a wealthy young woman whose life appears ideal. But a dark secret colors her life, for Delia's most loyal companions are ghosts, as she has been gifted (or some would say cursed) with an ability to peer across to the other side. Since the great quake rocked her city in 1906, Delia has been haunted by an avalanche of the dead clamoring for her help. Delia flees to the other side of the continent, hoping to gain some peace. After several years in New York, Delia believes she is free...until one determined specter appears and she realizes that she must return to the City by the Bay in order to put this tortured soul to rest. It will not be easy, as the ghost is only one of the many victims of a serial killer who was never caught. A killer who after thirty years is killing again. And who is now aware of Delia's existence.

Janelle Monáe's The ArchAndroid Alyssa Favreau, 2021-09-09 In Janelle Monáe's full-length debut, the science fiction concept album *The ArchAndroid*, the android Cindi Mayweather is on the run from the authorities for the crime of loving a human. Living in 28th century Metropolis, Cindi fights for survival, soon realizing that she is in fact the prophesied ArchAndroid, a robot messiah meant to liberate the masses and lead them toward a wonderland where all can be free. Taking into account the literary merit of Monáe's astounding multimedia body of work, the political relevance of the science fictional themes and aesthetics she explores, and her role as an Atlanta-based pop cultural juggernaut, this book explores the lavish world building of Cindi's story, and the many literary, cinematic, and musical influences brought together to create it. Throughout, a history of Monáe's move to Atlanta, her signing with Bad Boy Records, and the trials of developing a full-length concept album in an industry devoted to the production of marketable singles can be found, charting the artist's own rise to power. The stories of Monáe and of Cindi are inextricably entwined, each making the other more compelling, fantastical, and deeply felt.

Portrait of a Scotsman Evie Dunmore, 2021-09-07 The Instant USA Today Bestseller! A BuzzFeed Best Romance of 2021! One of Marie Claire's most anticipated romances of 2021! One of Cosmopolitan's most anticipated fall books of 2021! Going

toe-to-toe with a brooding Scotsman is rather bold for a respectable suffragist, but when he happens to be one's unexpected husband, what else is an unwilling bride to do? London banking heiress Hattie Greenfield wanted just three things in life: 1. Acclaim as an artist. 2. A noble cause. 3. Marriage to a young lord who puts the gentle in gentleman. Why then does this Oxford scholar find herself at the altar with the darkly attractive financier Lucian Blackstone, whose murky past and ruthless business practices strike fear in the hearts of Britain's peerage? Trust Hattie to take an invigorating little adventure too far. Now she's stuck with a churlish Scot who just might be the end of her ambitions.... When the daughter of his business rival all but falls into his lap, Lucian sees opportunity. As a self-made man, he has vast wealth but holds little power, and Hattie might be the key to finally setting long-harbored political plans in motion. Driven by an old desire for revenge, he has no room for his new wife's apprehensions or romantic notions, bewitching as he finds her. But a sudden journey to Scotland paints everything in a different light. Hattie slowly sees the real Lucian and realizes she could win everything--as long as she is prepared to lose her heart.

The Three Brothers Marie-Louise Gay, 2020-09-29 From world-renowned author and illustrator Marie-Louise Gay, a story about three brothers who set off in search of wild animals in a changing climate. This gentle adventure story about the effects of climate change ends on a hopeful note. Finn and his younger brothers, Leo and Ooley, love reading stories about animals living in forests, on mountains or in the arctic. "When I grow up," says Finn, "I want to be an explorer and travel around the world. I want to see wild animals and strange birds." "Why wait?" asks Leo. And so, the next morning, they wake up early and set out on a snowy expedition to search for wild animals. In their grandfather's time, the forest was full of animals — but today the forest is quiet. Where have the animals gone? The Good Arabs Eli Tareq El Bechelany-Lynch, 2021-09-21 Swinging from post-explosion Beirut to a Parc-Extension balcony in summer, the verse and prose poems in *The Good Arabs* ground the reader in place, language, and the body. Peeling and rinsing radishes. Dancing as a pre-teen to Nancy Ajram. Being drenched in stares on the city bus. The collection is an interlocking and rich offering of the speaker's geographical surroundings both expansive and precise, family both biological and chosen, and community. In mapping Arab and trans identity through the remnants of trauma, the garbage crisis in Lebanon, the ways countries let down their citizens, and the immensity of experience felt in one body, the genre-defying collection *The Good Arabs* gifts the reader with insight into cycles and repetition in ourselves and our broken nations. Ultimately, it shows how we might love amid dismay, adore the pungent and the ugly, and exist in our multiplicity across spaces.
