In Cod We Trust Eric Dregni, 2011-09-01 Eric Dregni's great-grandfather Ellef fled Norway in 1893 when it was the poorest country in Europe. More than one hundred years later, his great-grandson traveled back to find that—mostly due to oil and natural gas discoveries—it is now the richest. The circumstances of his return were serendipitous, as the notice that Dregni won a Fulbright Fellowship to go there arrived the same week as the knowledge that his wife Katy was pregnant. Braving a birth abroad and benefiting from a remarkably generous health care system, the Dregnis' family came full circle when their son Eilif was born in Norway. In this cross-cultural memoir, Dregni tells the hair-raising, hilarious, and sometimes poignant stories of his family's yearlong Norwegian experiment. Among the exploits he details are staying warm in a remote grass-roofed hytte (hut), surviving a dinner of rakfisk (fermented fish) thanks to 80-proof aquavit, and identifying his great-grandfather's house in the Lusterfjord only to find out it had been crushed by a boulder and then swept away by a river. To subsist on a student stipend, he rides the meat bus to Sweden for cheap salami with a busload of knitting pensioners. A week later, he and his wife travel to the Lofoten Islands and gnaw on klippefisk (dried cod) while cats follow them through the streets. Dregni's Scandinavian roots do little to prepare him and his family for the year in Trondheim eating herring cakes, obeying the conformist Janteloven (Jante's law), and enduring the mørketid (dark time). In *Cod We Trust* is one Minnesota family's spirited excursion into Scandinavian life. The land of the midnight sun is far stranger than they previously thought, and their encounters show that there is much we can learn from its unique and surprising culture.

It's really not something we should be ashamed about, for it reinforces something we sincerely believe: design matters. At its best, book cover design is an art that transcends the publisher's commercial imperative to reflect both an author's ideas and contemporary cultural values in a vital, intelligent, and beautiful way. In this groundbreaking and lavishly illustrated history, authors Ned Drew and Paul Sternberger establish American book cover design as a tradition of sophisticated, visual excellence that has put shape to our literary landscape. *By Its Cover* traces the story of the American book cover from its inception as a means of utilitarian protection for the book to its current status as an elaborately produced form of communication art. It is, at once, the intertwined story of American graphic design and American literature, and features the work of such legendary figures as Rockwell Kent, E. McKnight Kauffer, Paul Rand, Alvin Lustig, Rudy deHarak, and Roy Kuhlman along with more recent and contemporary innovators including Push Pin Studios, Chermayeff & Geismar, Karen Goldberg, Chip Kidd, and John Gall.
